What Shall the Legislature now do?" The Louisville Journal of yesterday answers the above question as follows:

in their orders the day before.

In our judgment, the people of Kentucky have answered this question in advance, and the answer, expressed in every conceivable form of popular expression, and, finally, clinched by the glorious vote of Saturday, is: ARM KENTUCKY, EFFICIENTLY BUT RIGHT. FULLY AND FAIRLY, WITH THE CLEAR DECLAR-ATION THAT THE ARMING IS NOT FOR OF-FENSE AGAINST EITHER THE GOVERNMENT for that must precede any satisfactory adjust-DEFENSE AGAINST WHATEVER POWER SETS HOSTILE FOOT UPON THE ACTUAL SOIL OF THE COMMONWEALTH. In other words, the Legislature, according to the manifest will of the people, should declare the neutrality of Kentucky in this unnatural and accursed war of brothers, and equip the State for the suc-cessful maintenance of her position at all hazards. And when the Legislature shall have done this, it may, in our opinion, wisely adjourn, leaving the cause of peace and of constitutional government, so far as Kentucky is concerned, in the hands of the Twelve Mediators whom the people of the Common-wealth have just chosen expressly for that high custodianship. This, it seems to us, as it plainly seems to the people at large, is what the Legislature should now do.

What is the real significance of this proposal of "leaving the cause of peace and of constitutional government, so far as Kentucky is concerned, in the hands of the Twelve Mediators, whom the people of the Commonwealth have just chosen expressly for that high custodianship?" Is it a threat of revolutionizing the State government of Kentucky? It may not have that aim; but at first blush many readers might so construe it. For though it only proposes to leave the "cause of peace and constitutional government" in the hands of the "Twelve Mediators," plain minds may be puzzled to comprehend how "peace and constitutional goverment" can be maintained, except by the cooperative action of the constituted authorities -the Executive and Legislative Departments. Is it proposed that, after provision for arming the State shall have been made the Executive and Legislative Departments shall abdicate and leave the government in the hands of a Duodecemvirate, as Rome was once put in the hands of the Decemvirs?

Our understanding of the law under which twelve delegates have been elected to attend a Convention of slaveholding States not having passed secession ordinances, is, that they can exercise no legal functions whatever, except in case of being met by "delegates from the States aforesaid." Can any other construction be given to the act? And we apprehend that Kentucky will be met by not one of "the States aforesaid," and therefore the action of the "Twelve Mediators," in maintaining peace and constitutional government in Kentucky, will be properly confined to the exercise of that moral influence, which, as good citizens, they are bound to throw into the scale, in supporting the existing constitutional authorities of the State.

THE LEGISLATURE.—The Reporter's Department will, during the session, give the reader a full record of all proceedings. In obedience to the Governor's proclamation, the members of both Houses assembled at 12o'clock yesterday, when the presiding officers called them to order. Mr. Speaker Meriwether, on calling to order, remarked, in substance, that if the House desired a new presiding officer, he would interpose no obstacle to the choice of a new one. After a fervent prayer by Rev. Mr. Abbett, praying Almighty God to stay the progress of civil war in the land, and invoking His continued guardianship over the country, on the roll being called and a quorum not being present, the House adjourned.

The Senate learning that a quorum had not appeared in the House, also adjourned till today, when, it is hoped, both Houses will be prepared to receive the Governor's message and proceed to business.

THE BORDER CONVENTION ELECTION .-The Union Democracy had it all their own way in the election of last Saturday for delegates to the Border State Convention, the States Rights ticket having been withdrawn. It was nonsense to hold such an election after it was clearly ascertained that the Convention, contemplated by the act of our Legislature, could not be held, and the whole thing was an empty bubble. We could not trifle with the country by participation in such a needless act. The Courier reports that while 3000 voters did not attend the polls, yet that the party that did attend recorded more votes than there are in both parties. Ditto at Maysville. Comment would be superfluous.

The Governors of Ohio and Indiana refuse to co-operate with the Governor of Kentucky as mediators between the Northern and Southern belligerents; but with charming naivete propose to co-operate in an embassy to induce the Confederate States to return to their allegiance to the old Union, now rendered a mockery under the rule of Lincoln. Well, when will Governors Morton and Dennison set out with Gov. Magoffin for Montof Lincoln?

Unity of Our People.

In this awful crisis of public affairs, standing as Kentucky does on the very edge of perilous calamities, all her sons, no matter of what political antecedents, should consider conscientiously their solemn duties to the Commonwealth and to each other. For ourselves, whatever may be the final posture as-One copy per annum. in advance......\$4 00 sumed by our native State, which we love with the fondness of a babe clinging to its mother's breast, we have long ago resolved it to be our duty loyally to acquiesce in her decision as to her external relations. We hold none can disobey without disloyalty. So regarding the matter, how greatly important that we should all so shape our conduct as to be prepared in perfect good faith to maintain the position the State may finally take, whatever that may be, with patriotic heroism. We are all admirers of the Federal Constitution and the Union based thereon. We all desire harmony, concord, fraternity, comity-the underlying supports of Union. We all would rejoice to see all these restored between the States and peace and prosperty smiling over our once blessed but now stricken land. We agree as to the blessings of a Union faithfully carried on as the fathers who framed the Constitution designed it should be; we all deplore its rupture; and all would rejoice at a perfect restoration and reconciliation. But we differ somewhat—we speak of the States Rights and Union Democracy parties—as to the mode of attaining the end earnestly desired by all. It is well to discuss these differences thoroughly: OR THE SECEDING STATES, BUT PURELY FOR ment. But let us, while discussing our differences, do so in a spirit of candor-searching only for truth-cherishing respect and charity for one another-reaching only after wise, just, and safe conclusions. Of the honest sincerity, of the earnest patriotism, of many with whom we differ, we have as firm a conviction as we have of our own. Let us conduct the high debate under a high sense of honor and a solemn sense of our duties and responsibilities; so that, no matter what conclusions may be finally reached, all can unite with hearty good will in sustaining it. As Kentuckians, we must, in the end, be a unitwe must stand or fall together—for the motto of our State seal is an expression of true wisdom-"United, we stand; divided, we fall."

> Our Washington correspondent states that Major Anderson will be intrusted with the command of a brigade of Kentuckians which is immediately to be raised.—Cin. Gazette.

That is all bosh. No brigade, no regiment, not even a company can be mustered out of Kentucky to march under the banner profaned and desecrated by Lincoln. All such paragraphs as the above are lying inventions, got up for purposes of wicked deception.

We commence, in this issue, the pubication of President Davis' Message to the Congress of the Confederate States. Every reflecting man, North and South, ought to read and ponder this document. It is calm and dignified in tone, able in exposition, clear and instructive in statement of facts, and most admirable and exemplary in its gentlemanly, christian-like temper. From what we deemed correct information. we announced the other day that the Governor had ordered a special election for Representative in the General Assembly to fill a vacancy in Trigg county, and that Hon. H. C. Burnett was a candidate. This turns out to be entirely erroneous. Young A. Linn, Esq., the Representative from Trigg, appeared in his seat yesterday, looking hale and hearty, having neither died, resigned, nor removed. The special election, therefore, even if held, will be a nullity.

The foregoing query, communicated to the Yeoman, is one which, knowing nothing of t concerns may probably respond.

Sentiment in Virginia on the Revolution.

I hope that Kentucky, the glorious aughter of the Old Dominion, will be with us in our hour of need. All honor to your gallant Governer for his noble and emphatic eply to the call of Lincoln for troops. Inion sentiment in this portion of Virginia was largely in the ascendant; in fact, with ome it bordered on Black Republicanism; but now it is otherwise. The storm has come nd all we have to do is to meet it. The fact is, that when such men as Summers, Price, Baldwin, and other Union men, and even J. M. The following from the New York Evening Post of May 2, an able and recognized organ of the Lincoln party, will show in what light the Administration and the North regard the position of Neutrality. The article pays particular attention to Kentucky and Gov. Magoffin. It is in the same spirit of the letters to our Governor by the Governors of Indiana and Ohio-ignoring us fort.

Neutrality. The most mischievous traitors the government has had to deal with in its preparations to put down the rebellion are those pretended overs of the Union who set up in the border slave States a preposterous claim to "neu-

Neutrality is the state of a nation which takes no part in a war existing between other nations. In, a war between England and France the United States might, with perfect propriety, claim and hold the position of neutrals. But when the lawful and constitutional government of a nation calls upon the people to defend it against the assaults of a band of mutinous rebels, there can be no such thing as neutrality on the part of any man or body of men in the nation. Those who are not for the flag are against it. Those who do not support the government are either open

ebels or secret traitors. Moreover, in the present issue, when the Governors of Kentucky and Maryland claim to hold their States neutral, they simply seek to establish, in a new and more dangerous manner, the very position already occupied by those in open rebellion against the Union; that the States of this Union are individual and independent nations, and may act at will in a national capacity. It is to put down forever this pernicious and destructive heresy, the danger of which has been pointed out by out a quorum.

mit her secession from the Union. We are engaged in a contest with a band of armed traitors, who are striving to subvert the lawful, constitutional government of this nation, and substitute in its place an irresponsible military despotism. The nation is arming to resist a set of men who conspired against its liberties while some of them held high places in the national government, who are now in rebellion against the people, and whose boast it is that they will destroy our Union and humble our flag in the dirt. In such a adjourned to meet to-morrow at 10 o'clock case there can be no "neutrality." The state A. M. or the individual who, on any pretence, refuses to obey the lawful and constitutional demands of the government, is a rebel against "the supreme law of the land."

But all the facts show that this talk of "neutrality" is the shallowest pretence for giving aid to rebellion without incurring the risk of a traitor's doom. Governor Magoffin refuses with an insult the requisition of the Presithemselves with the arms supplied by the national government to the State of Kentucky, march out of the State to the rebel camp, with

The people of the Southern States, whose almost exclusive occupation was agriculture, early perceived a tendency in the Northern States to render the common government subservient to their own purposes, by imposing burthens on commerce as a protection to their manufacturing and shipping interests. Long and angry controversy grew out of these attempts, often successful, to benefit one section of the country at the expense of the other, and the danger of disruption arising from this cause, was enhanced by the fact that the Northern population was increasing by immigration and other causes in a greater ratio than the population of the South. By degrees, as the Northern States gained preponderance in the Northern States gained preponderance in the National Congress, self-interest taught their people to yield ready assent to any plausible advocacy of their right as a majority to govern the minority without control; they leaved to listen with impatience to the manufacture of the survey of the learned to listen with impatience to the sug-

The occasion is indeed an extraordinary one. It justifies me in a brief review of the relations heretofore existing between us and the States which now unite in warfare against us, and in a succinct statement of the events which have resulted in this warfare; to the end that mankind may pass intelligent and impartial judgment on its motives and objects.

Houston has very imperfect use of an arm and a leg, and Col. Morgan is totally blind. Mr. Kos Morgan happened to be just behind them, in another boat, at the time of the accident, and when he came over to the spot both were under water. Gen. Morgan's first expression on getting his head above water was that they could not drown him any way they could fix it. He was once before capsized, and though old and blind, held on to the bottom of the boat while two other persons were wafted off and drowned.

HEADQUARTERS KY. STATE GUARD, ) Louisville, May 3d, 1861.

To the Adjutant-General of Kentucky: On the 29th ultimo, in company with Senator Johnson, of McCracken county, I called on the commanding officer of the military force now stationed at Cairo, Ill. The object of our visit was to ascertain, in an official form, the authority under which that force acted, and the object of their occupying that station in reference to the citizens or to the State of

I informed the commanding officer that our purpose was to maintain with our neighbors relations of the most cordial friendship, to abstain ourselves, from any acts, which might have even the appearance of an ag-gression on their rights, and to claim in return an equal respect from them; and that I desired to obtain from him such assurances as would tend to quiet the excitement occasioned in Kentucky by the seizure and detension at Cairo of private property by an armed force under his command. I had previously, on the 19th of April, instructed the comman of the active militia in that section of Kentucky "to spare no exertions to prevent all lawless action, or action calculated to precipi-

In reply to my inquiries, the commanding officer at Cairo stated that he was then acting, and had been acting, under the orders of the Governor of Illinois, but expected very soon to be acting under the authority of the United States; that he had made no seizures of boats or property except under special instructions; that arms or ammunition belonging to the State of Kentucky, in passing from a United States arsenal, would not be seized under the instructions under which he then acted.

I asked if arms or ammunition, the property of citizens of Kentucky, and procured for their own use, would, under his instructions, be seized or detained at Cairo? plied that they would not; but qualified his reply by stating that it would depend upon the point to which they might be destined; if, for instance, they were destined to Columbus in Kentucky, he would not permit such property to pass his point. He further qualified answer by remarking that he wished to be fully understood, and that "it would not be safe" for any large quantities of arms or ammunition, however destined, to pass his post. I asked him, in reply, if I understood him to imply that the Governor of Illinois claimed the right to decide what citizens of Kentucky should and what citizens should not be entitled to receive property which they had provided for their own use?

He replied that no such claim was asserted: but that he would seize such arms on th principle of self-defense, claiming the right to detain arms, which he had reason to think would be used against himself. there was any reason to believe that any hostile purpose was designed by the citizens of Columbus or its vicinity? He replied that he was satisfied such purpose was designed both by the citizens of Columbus and persons from other States co-operating with them;—that his post had been threatened from that quarter, and that the citizens of that place had gone so far as to threaten to prevent the trips of the steamer which connected that point with Cairo. I asked if he had notified the The most effective Blood Purifier of the authorities of Kentucky of the hostile purpos of its citizens, or of the designs of the citi zens of other States, to use her territory for aggressive purposes? He replied that he had not. I suggested that such a course would be advisable before adopting towards the citizens of Kentucky the policy which he indicated; that the policy of Kentucky was not to inter-meddle with the affairs of any of her neighbors; and that she felt competent to prevent aggressions on her neighbors through her territory, if she were notified that such aggression was designed; and that she did not recog nize the right of other parties to pass through her territories for the purpose of redressing their grievances against each other. He replied that the question of such a right would involve the discussion of many points. To which I replied that the question as between Kentucky and Illinois did not admit of argument; that the citizens of Kentucky recognized no authority in the Governor of Illinois to invade the jurisdiction of Kentucky, or to interfere with the rights of her citizens.

I further assured the officer in command that I would visit Columbus in order to ascertain the correctness of his information.

My letter to Col. Prentiss, herewith inclosed, will show that he labored under an entire misapprehension of the facts. apprehension of the facts.

In conclusion, I asked Col. Prentiss if his Good for the Stomach, Pleasing to the instructions contemplated the occupancy by his forces of any part of the soil of Kentucky. To which he replied, unhesitatingly, that they did not.

SIR: I have instituted proper inquiries at this point in relation to the subject of our interview yesterday. I assured you that I was of opinion that your information in reference to any aggressive purpose on your post State from this point was incorrect. My inquiries amongst the citizens and authorities confirm me in my opinion. No hostile purpose has been attempted or conceived at this point, or, as far as the citizens here know, by the people south of here, with a view of directing it through this point or any other part of Kentucky against any part of Illinois.

Your information in reference to the proposed stopping of the trips of the steamer Cheney, by the citizens of this place, is equally Their indignation on that s ed entirely to what they regard as an zed detention of that steamer under rity at Cairo. It is to be regretted felt authorized, on such imperfect information, to express to me your purpose to prevent the passage of any arms or ammunition which the citizens of this place or vicini-ty might wish to provide for their own use. Under the circumstances, such an act, no aggressive purpose is even meditated here, would not even find its justification in the plea of self-defense, which you urged, much in law, justice, or that comity which should exist between neighboring States. BEFORE TAKING THE AFTER TAKING THE ELEXAGE. DR. WRIGHT'S

CELEBRATED REJUVENATING ELIXIR!!

Prepared on the strictest Pharmaceutical principles by one of the ablest Chemists of the age.

This is altogether a new medicine, the result of modern discoveries in the vegetable kingdom, being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems published by accomplished quacks to the suffering. Dr. Wright, well knowing the deception practised upon the uninitiated, felt it his duty at once to have this Elixir tested by the whole Medical Faculty, who, without even one dissenting voice, have given in their adherence to its perfect and undivided control over the whole physical man when his frame has been over the whole physical man when his frame has been reduced, and when all other medicines known to the Pharmacopeia have been tried in vain. Long thought, years of patient investigation, and a nil desperandum determination, have erowned the Doctor's efforts, and he now offers the Elixir to suffering humanity as the only thing that can cure the following diseases—namely:

As a Stimulant,

It is quite different from alcoholic preparations. It is not subject to reactions in any shape; it continues to exert its influence, gradually and efficiently, as long as the least necessity exists for its presence. As a Female Medicine,

It is equally powerfur and effective, and restores the equilibrium sooner and safer than all the other medicines which for years have flooded the market, and which are only iniurious, in place of assisting or renovating the constitution; for a very good reason too, that they are only made from the effusions of minds ignorant of the Medical profession altogether. No Minerals?

Dr. Wright thinks it well to stake his professional character on the fact, that no minerals whatever orm the least component parts of the ingredients in its Rejuvenating Elixir—well knowing what ruin has been entailed on the community by opium and Generally, to the debilitated, Dr. Wright would say, Generally, to the debilitated, Dr. Wright would say, Gever despair. (Whites in Females,) for this complaint it is invaluable.

I. As a general alterative and blood purifier it has no equal, and does not fail to cure SCROFULA, SECONDARY SYPHILIS, GLANDULAR SWELL-INGS, MERCURIAL and ALL ERUPTIVE DISEASES, curing them more speedily and permanently than any other medicine known. It does this by purifying and clensing the blood! Causing it to flow in all its original purity and vigor, thus removing from the system all impure and permicious causes which have induced disease.

I. Fin all old cases of Gonorhoa and Gleet, that have baffled all medical skill, it is especially recommended—in old cases it never fails, and recent ones it cures from one to three days. A few doses positively removes all scalding heat, chorded and pain.

Thousands are daily speaking in the praise of DR. EATON'S.

IT is known by a few individuals in the counties of
Jefferson, Shelby, and Oldham that I have a remedy that effectually cures Hooping-Cough. If there
are remedies in America or Europe that cures, it is
not within my knowledge, (except the one I use.)
Physicians tell the families they attend it can't be
cured. I have no doubt they are candid in what
they state. To get the medicine in use, and lull to
sleep a deep-rooted prejudice, the faculty are invited
to get the medicine, and save the little innocents
whom they attend, and tell them no more it cannot
be cured. One dollar will pay for two bottles, which
